

LED MOON LIGHT DZM 7X LAMP

Model: DZM 7X

Certificate No.: LCT-250903046621, LCT-250903046622

TECHNICAL DATA:

Power: 36W

Nominal input: 110V/240V 50Hz/60Hz

Nominal output: 24V 2A

Lighting mode: 3 levels of color temperature adjustment

Color Rendering Index (CRI): >90

Color temperature range: 3000-6500 K

lamp beads: 238 pcs

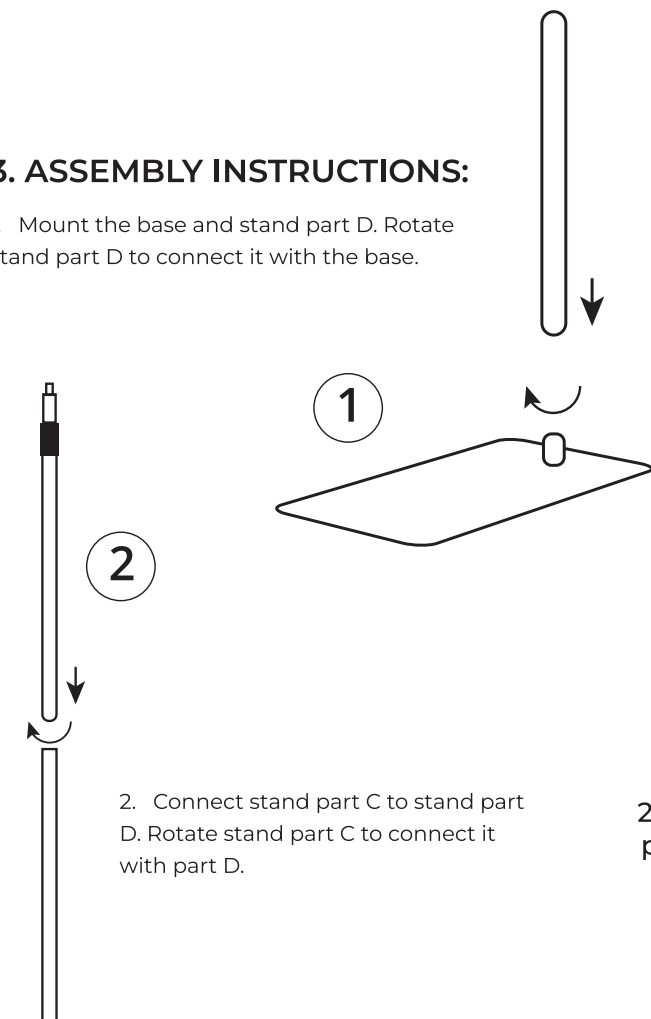

2. STRUCTURAL DETAILS:

1. Lamp
2. Stand part A
3. Stand part B
4. Adjustment screw
5. Stand part C
6. Stand part D
7. Base

 - Loosen the adjustment screw and remove part B from part C.
 - Rotate part B to connect it with part A, then tighten the adjustment screw. A, a następnie dokręć śrubę regulującą.
 - Connect the power cable to the DC port and rotate to secure.

Note: Set the lamp and the base in the same direction to ensure safe use.

4. ADJUSTMENT INSTRUCTIONS:

CONTROLLER

1. Increase brightness
2. Decrease brightness
3. Cool/warm light switch
4. Lighting mode switch
5. ON/OFF button

REMOTE CONTROL

1. Increase brightness
2. Decrease brightness
3. ON/OFF button
4. Cool light switch
5. Warm light switch

5. PACKAGE CONTENTS:

- Moon Light Lamp - 1 pc
- 24V 2A Power adapter - 1 pc
- AC power cable - 1 pc
- User manual - pl/en
- Warranty card - pl/en
- Base - 1 pc
- Stand part D - 1 pc
- Stand part C (assembled) - 1 pc
- Phone holder - 1 pc
- Remote control - 1 pc

6. SAFETY OF USE:

1. Read the manual carefully before use and assemble the lamp according to the instructions.
2. Fix the lamp securely on the stand.
3. The voltage must correspond to the lamp's parameters.
4. Do not switch off the device by pulling the cable and do not touch the plug with wet hands.
5. The lamp should be stored in a dry and ventilated place.
6. After use, disconnect the power supply to avoid short circuits.

In accordance with art. 13 sec. 1 of the Act of 11 September 2015 on used electrical and electronic equipment (Journal of Laws 2015 item 1688), we inform you about the correct handling of waste electrical and electronic equipment:

1. It is prohibited to place used electrical and electronic equipment together with other waste - this is confirmed by the marking in the form of a "crossed-out bin", which requires selective collection of this type of waste.
2. Electrical and electronic devices may contain hazardous substances, mixtures and components, which, after entering the environment, may pose a serious threat to the health and life of humans and living organisms.
3. Used electrical and electronic equipment should be transferred only to authorized collection points, the list of which should be included on the website of each Municipal Office.
4. Households play a key role in the waste management system for used electrical and electronic equipment due to the possibility of their direct transfer to authorized collection points and the elimination of undesirable social habits resulting in leaving waste equipment in places not intended for this purpose.
